Transition Notice: 0702L Touchscreen Monitors

Product Information

Please be advised that, due to multiple component availability EOLs and constraints, the 0702L micro-USB DisplayLink™ touchscreen monitors are being discontinued and transitioned to the newly released 0704LS. The 0704LS 7-inch touchscreen monitor features a clean, compact design with single-cable USB-C connectivity, optical bonding for enhanced display clarity, improved viewing angles and a higher resolution display.

While we work to minimize product changes, product refreshes are needed from time to time to keep the product current with new technology and features. When this occurs, we try to offer a suitable replacement product with equal or better specifications.

Inventory and Ordering Information

- Due to component shortages, limited last time buy orders will be accepted through **December 25th, 2026**, with last time ship to be completed by **March 26th, 2027**.
- Please consult with your sales representative for specific part numbers, details and sample availability.
- The recommended replacement part may not be electrically or mechanically identical to the discontinued product.

Transitioning & Replacement Part Numbers
